Terms and Conditions

Key Terms

Average Daily Balance: An average daily composite of all cash balances that earn interest and all loans from Charles Schwab & Co., Inc. ("Schwab") that are charged interest. The interest cycle may differ from the statement cycle. Interest accrues from the second-to-last business day of the prior month and is posted on the second-to-last business day of the current month.

Asset Allocation: This section represents your distribution of assets among different asset classes including stocks, options, mutual funds, bonds and other assets (includes mortgage backed securities). The % column may not total to exactly 100% due to rounding.

Buying Power: The amount available to you as of the last day of the statement period for the purchase of marginable securities.

Cash Available: The amount of credit Schwab may extend to you based on the holdings in your margin account.

Cash & MMF: Added/Subtracted: The total of all purchases, sales, deposits, withdrawals, VISA® debit card, ATM and check transactions processed during the statement period. This figure does not include purchases and redemptions of Sweep Money Market Funds that result from these transactions.

Cash & MMF: Starting Value: The starting value is the balance of Cash and Sweep Money Market Fund shares held in your Account, less any Margin Loan Outstanding at the beginning of the statement period. It is shown as Cash & MMF: Ending Value on the prior statement.

Change in Value: This figure indicates the growth or decline (including securities deposited or withdrawn) in the value of your investments (excluding cash and Sweep Money Market Funds) during the statement period, net of transaction costs.

Dividends Pending: The dividend due on your Account for any equity or mutual fund that declares a distribution where the record date falls before statement month-end and the pay date falls in a subsequent month. *Note:* Our ability to provide this information and pay distributions depends on our receipt of information and payments from the paying agent before the last business day of the statement period.

Free Credit Balance: Any free credit balance represents funds payable upon demand which, although properly accounted for on our books of record, are not segregated and may be used in the conduct of this firm's business.

Investment Detail: If available, bonds will have credit ratings from Moody's and Standard & Poor's.

Investments: Purchased/Sold: The total of all purchases/sales settled in the statement period, including commissions and fees.

Investments: Starting Value: The value of
E9G2902-006180 302579

positions held in your Account at the beginning of the statement period. It is shown as Investments: Ending Value on the prior statement.

Latest Price: The most recent price evaluation available on the last business day of the statement period, normally the last trade price or bid. Unpriced Securities denotes that no market evaluation update is currently available. Price evaluations are obtained from outside vendors. Schwab does not guarantee the accuracy of such values and prices.

Margin Account Equity/Margin Account Equity %: Equity position in your margin account, including options if applicable, as of the last day of the statement period. The percentage indicates the ratio of Margin Account Equity to the total market value of the margin account.

Margin Interest Paid: The interest charged for loans in your brokerage Account. Margin interest will be charged in accordance with the terms of the Account Agreement.

Margin Loan Outstanding: This is the amount of the loan in your brokerage Account as of the last day of the statement period. Margin interest is calculated on this figure less any Cash held in the account.

Market Monitor: The yields indicated are current as of the last day of the statement period. The yields are based on historical performance. Sweep Money Market Fund yields are 7 day annualized yields. Future yields will fluctuate. Before investing in any Sweep Money Market Fund, carefully read the prospectus which is available through Schwab. Also shown are percentage changes for several broad based indices. These are meant to be for reference only.

Total Ending Account Value: The value of your Account at the end of the statement period.

Total Starting Account Value: The total value of your Account shown on your prior statement, which reflects the value of your Account at the end of the previous period.
